Employees & Managers: It's time to take control of Time, Attendance & Rostering on Mobile

Imperago On-the-Go brings the full power of your time, attendance, and rostering solution into the hands of your workforce.

HFX has extended the Employee App to include Manager App features for Team & Operations control.

This is a huge time saver for Managers on the go who can now get ahead with admin work by dealing with absences and exceptions on the mobile instead of waiting to be back at the desk.

Designed for both employees and managers, the app enables real-time access, faster decision-making, and reduced administrative burden—whether on-site, remote, or on the move.
